The National Fallen Firefighters Foundation's Life Safety Initiative #13 states "Firefighters and families must have access to counseling and psychological support." As your department strives to protect your firefighters through the 16 initiatives, do not miss the important aspect of counseling and psychological support.

This two part class will first look at the national picture and then specifically at Kentucky. With the Kentucky presentation you will gain information on the current capabilities of the Kentucky Community Crisis Response Board and their services to your department. Learn when and how crisis teams should be requested, how teams are organized and how you can become a part of this organization.
