

2010 OFFICERS SCHOOL
Green River Firefighters Association
February 19, 20 & 21, 2010
Lexington Convention Center – Lexington KY

**20. Managing the Farm Related Emergency and
Emergency Operations with ATVs**

This class will explore the differences in managing farm related emergencies compared with other types of emergencies. The class will include common types of farm related emergencies and special challenges for responders. The class will review managing the farm related incident, resources needed and available, common tactical operations and preplanning options.

The class will also update students on the latest news in ATV Safety and safely using ATVs during emergency responses. The number of ATV incidents and the remote locations of these incidents which departments are responding to are growing rapidly. In addition, more departments are gaining ATVs for wildland firefighting, search and rescue and the need for training responders to effectively and safety operate these units is increasing.

This is a **ONE DAY CLASS** and will be offered on **SUNDAY ONLY**

INSTRUCTOR: DALE DOBSON, KY DEPARTMENT OF AG

Dale Dobson serves as the Farm and Home Safety Administrator for Kentucky's Department of Agriculture. In this role Dale leads the charge to tie farm safety educational programs and farm rescue training programs into a unified effort. Dale has delivered educational programs throughout Kentucky and has become Kentucky's recognized specialist in rural safety and rescue.
