

**2010 OFFICERS SCHOOL**  
**Green River Firefighters Association**  
**February 19, 20 & 21, 2010**  
**Lexington Convention Center – Lexington KY**

**21. METH LABS - A FIREFIGHTER'S NIGHTMARE**

This class provides a survey of clandestine methamphetamine manufacturing, beginning with an overview of methamphetamine production and trafficking. The hazards of responding to methamphetamine labs, including environmental contamination, potential explosions and personal exposure, are highlighted. Also covered are indicators of a clandestine laboratory, items and equipment utilized, and the ephedrine/ammonia, or "Nazi", method of manufacturing methamphetamine. This class will explore how cooperation between law enforcement, EMS, fire and rescue agencies will improve the safety and effectiveness of your response to a meth lab incident.

This is a **ONE DAY CLASS** and will be offered on **SATURDAY** and **SUNDAY**

**INSTRUCTORS:**           **JERRY ADERS**  
                                     **RICKY KING**  
                                     **CHEYENNE ALBRO**

Jerry Aders is the Chief of the Greenville Fire Department. Ricky King is the Chief of the Central City Fire Department. Chief King is the 2<sup>nd</sup> Vice President of the Green River Firefighters Association and a member of the Area 3 Fire Rescue Training staff. Cheyenne Albro leads the Pennyriple Narcotics Task Force.

These instructors bring with them over 100 years of combined law enforcement and firefighting experience. These instructors will present to students information about methamphetamine labs and expose you to an effective operation between response agencies, where cooperation begins in the planning process and continues until the incident is terminated.
