

2010 OFFICERS SCHOOL
Green River Firefighters Association
February 19, 20 & 21, 2010
Lexington Convention Center – Lexington KY

5. Thermal Imagers, a Resource with Many Options

This class will explore the many operational options you have with thermal imagers, including size up, search, attack, overhaul, hazardous materials, EMS, wildland, and the list goes on. This class will benefit officers from both departments with thermal imagers and departments considering the purchase of a thermal imager. This class will include the basic operating features of thermal imagers and the technology and basic theory associated with thermal imaging.

This is a **ONE DAY CLASS** and will be offered on **SATURDAY** and **SUNDAY**

INSTRUCTOR: DENNIS STOUT, E.D. BULLARD CO.

Dennis Stout has over 21 years experience in fire, rescue, EMS, and law enforcement activities related to personal protective equipment. Dennis has 13 plus years as Market / Product Manager for Bullard developing all current fire, rescue and wildland related head protection and 10 years experience of field sales and service of PPE and Thermal Imaging Technology.

Dennis has been an active member for 13 years of the NFPA 1971 Structural, 1976 ARFF, and 1977 Wildland Committees involving all areas of personal protective equipment performance standards. Dennis initiated Bullard's introduction of thermal imaging into their product offerings.
