106 “Fire Ready” Mini-Academy

“Fire Ready” is a course that will cover each required topic set forth by the 2017 Edition of NFPA 1403 Live Fire Training. NFPA 1403 requires students to have knowledge of these topics to participate in Live Fire exercises. If you are wanting to participate in Live Fire exercises then this is the course for you. The course will include classroom lectures and hands-on skill settings, ranging from basic fire firefighter training to Live Fire scenarios. This course is not just for the “Newest Guy” on the department, but an excellent refresher for seasoned members as well. Subjects listed on the Live Fire Course Competency Validation form will be covered in this class.

PRE-REQUISITES/EQUIPMENT NEEDED

Full PPE & SCBA with a spare cylinder is required. All PPE must be less than 10 years old and SCBA cylinders within hydrostatic date. Any student with facial hair that impedes the seal of the face piece will not be allowed to participate.

Lunch will be available to purchase on-site for \$6 per person per day.

This course will be off-site.

This 4-day course will be offered Thursday-Sunday.

Lead Instructor: Dave Earnest, State Fire Rescue Training District 15
