

JUNE 9-12 ✖ LEXINGTON

**PROGRESS IS IMPOSSIBLE
WITHOUT CHANGE**

91st Annual Kentucky State Fire School

Conference-at-a-Glance

Tuesday, June 7, 2022

8:00 am – 5:00 pm	Fire Officer I	BCTC – Leestown Campus
-------------------	----------------	------------------------

Wednesday, June 8, 2022

8:00 am – 5:00 pm	Fire Officer I	BCTC – Leestown Campus
8:00 am – 5:00 pm	Fire Officer II	BCTC – Leestown Campus
8:00 am – 5:00 pm	Aircraft Firefighting	Bluegrass Airport Training Cntr
8:00 am – 5:00 pm	Rope Rescue	BCTC – Leestown Campus
8:00 am – 5:00 pm	Trench Rescue Technician	BCTC – Leestown Campus
3:00 pm – 6:00 pm	Registration	BCTC – Leestown Campus

Thursday, June 9, 2022

7:00 am – 5:00 pm	Registration	BCTC – Leestown Campus
8:00 am – 5:00 pm	Classes in Session	
5:00 pm – 6:00 pm	KFA Meeting	Embassy Suites UK/Coldstream

Friday, June 10, 2022

7:00 am – 5:00 pm	Registration	BCTC – Leestown Campus
8:00 am – 5:00 pm	Classes in Session	
2:00 pm – 9:00 pm	Exhibits and Vendors	Embassy Suites UK/Coldstream

Saturday, June 11, 2022

7:00 am – 5:00 pm	Registration	BCTC – Leestown Campus
8:00 am – 5:00 pm	Classes in Session	

Sunday, June 12, 2022

7:00 am – 4:00 pm	Registration	BCTC – Leestown Campus
7:30 am – 8:00 am	Worship Service	BCTC – Leestown Campus
8:00 am – 5:00 pm	Classes in Session	

KCTCS does not discriminate based on race, color, religion, national origin, sex, disability, or age in its programs and activities. The following person has been designated to handle inquiries regarding nondiscrimination policies: Director of Diversity Programs, 300 North Main Street, Versailles, Kentucky 40383, phone 859-256-3100.

Hotel Accommodations

Rooms are blocked at the host hotel for "2022 Kentucky Fire School" and being held at the government rate of \$109/night. This rate is available until May 23, 2022. After that date, the room rate will be based upon availability and cannot be guaranteed.

Host Hotel:

*Embassy Suites Lexington UK/Coldstream
1801 Newtown Pike
Lexington, KY 40511
(859) 455-5000 – Mention Group Code **FIR** when making reservations*

[Room Reservation Link](#)

Registration

Register on-line at:

[2022 Kentucky State Fire School \(sfrtarea3.org\)](http://sfrtarea3.org)

You may also send completed registration form(s) along with application fee(s) to:

***State Fire School
P.O. Box 700
Calhoun, KY 42327***

Register early to assure a spot in your first-class choice. Online registrations accepted until May 25, 2022. Classes without a significant number of students pre-registered on this date will be cancelled. After May 25, you may only register on-site at the school.

On-site registration will be on a first come, first served basis based on class availability. We strongly encourage early, online registration.

COVID-19

Masking and social distancing requirements will be established at the time of school according to the current guidelines and local KCTCS policy.

Refreshments

There will not be refreshments available during the 2022 State Fire School. Vending machines are available on campus.

Fees

Registration fee \$75

All fees are due at time of registration

Free admission to Exhibit and Vendor Showcase!

Student registration will be located at the Leestown campus of Bluegrass Community and Technical College (BCTC). See "Conference-at-a-Glance" for on-site registration dates and times.

All students must check in at registration to confirm seat in classes and receive other essential conference information including classroom locations. Travel to off-site locations is the responsibility of the student; transportation will not be provided.

Parking

Limited student parking will be available at BCTC-Leestown. Please park in the designated student lot located along the West end of campus as you enter the main driveway.

We highly encourage carpooling during this school.

Exhibits

The Exhibit and Vendor Showcase is the largest display of emergency service equipment, supplies, and services in Kentucky. Exhibitors come from several states showing everything from collectibles to fire apparatus. We appreciate the continued support of our vendors and exhibitors. State Fire School would not be successful if not for the devoted following of these loyal friends. Please take advantage of this opportunity to visit and get any questions answered at a face-to-face meeting. Also, please keep these vendors at the top of your list when it comes to purchasing apparatus and equipment for your department or organization!

*****Announcements & updates concerning the 2022 State Fire School will be posted on the Fire Commission website and Fire Commission Facebook page*****

100 Learn by Doing “Hands-On Courses”

101 Aircraft Firefighting with Optional IFSAC Accredited Testing

The NFPA 1003 Standard for Airport Firefighter Professional Qualifications identifies the minimum requirements for a firefighter who has demonstrated the knowledge and ability to perform with responsibilities in aircraft rescue and firefighting. The purpose of this program is to identify experienced fire service personnel who demonstrate competency in the performance requirements necessary to perform the duties of an Airport Firefighter. A person certified at the Airport Firefighter level will have demonstrated competency in the necessary knowledge and skills to function as a firefighter at an airport facility. Fundamental aircraft firefighting techniques, use of Proximity Personal Protective Equipment (PrPPE), civil and military aircraft construction, critical components, hazards and systems, oxygen-enriched atmospheres, aircraft egress and ingress, aircraft fuels, crash scenes and critical stress management will be covered.

CERTIFICATION PROCESS

An attempt at IFSAC accredited certification is available, but not required, the last day of class. Candidates will submit a completed application to the Kentucky Fire Commission. The candidate shall remit the prescribed written test sitting fee of \$25, payable by department check or money order. They will attempt a written examination of 100 multiple choice, true/false, or matching questions and participate in a skills examination. Upon successful completion of the written and skills exams, provided all documentation and fees are submitted, and prerequisites are satisfied, the candidate shall become eligible to receive an accredited certification from the Kentucky Fire Commission.

PRE-REQUISITES/EQUIPMENT NEEDED

Prior completion of subjects listed on the Live Fire Course Competency Validation form. This form must be mailed in with payment. To certify at this level (if you choose), you must already possess IFSAC Accredited Firefighter I and II certification and associated pre-requisites. Candidates wishing to test for IFSAC ARFF Certification must submit copies of their IFSAC Firefighter I and II certificates to the instructor on the first day of class. Full PPE & SCBA with a spare cylinder is required. All PPE must be less than 10 years old and SCBA cylinders within hydrostatic test date. Any student with facial hair that impedes the seal of the face piece will not be allowed to participate.

This course will be located off-site.

This 5-day course will be offered Wednesday-Sunday with skills testing available on Sunday.

Lead Instructor: Brian Wainscott, Blue Grass Regional ARFF Training Center

102 Rope Rescue Technician

This class will start at the beginning and will cover Basic, Intermediate and Advanced rope rescue techniques as required to meet NFPA 1006. Students should be physically capable of performing and demonstrating the skills required for meeting NFPA 1006 and capable of working in the low and high angle environment.

PRE-REQUISITES/EQUIPMENT NEEDED

Students will need leather form fitting/snug gloves, leather lace-up boots, and a rescue or fire helmet with chin strap. Personal gear may be used but must pass instructor inspection.

This course will be held off-site.

This 5-day course will be offered Wednesday-Sunday. Class is limited to the first 25 students.

Lead Instructor: Bart Powell, State Fire Rescue Training District 15

103 Trench Rescue Technician

This five-day course is designed to offer a combination of classroom and practical evolutions that allow the student to learn proper techniques when dealing with trench collapse incidents. It will be a start-to-finish class to give the student knowledge and skills in trench **awareness, operations, and technician**, as addressed in NFPA 1670 and 1006. Students will work in straight, deep, "T", and "L" trenches using various shoring equipment. A heavy component of this class will be realistic hands-on operations, including below-grade work in a dirt trench.

PRE-REQUISITES/EQUIPMENT NEEDED

As per NFPA 1670 and 1006 a student should have Confined Space Rescue – Technician, Vehicle and Machinery Rescue – Technician, Hazardous Materials – Awareness, and High-Angle Rope Rescue – Operations. Students will also need to bring a helmet, eye protection, extrication coveralls/turnout gear, gloves and steel-toed boots. Students are encouraged to bring their own hammer, but it is not necessary.

This course will be held off-site.

This 5-day course will be offered Wednesday-Sunday.

Lead Instructor: Marc Myres, State Fire Rescue Training District 6

104 Confined Space Rescue Technician

This course teaches students how to conduct a variety of rescues in permit-required confined spaces. Students will learn how to develop and update pre-plans, conduct practice rescues, inspect and maintain equipment, and coordinate with other emergency responders. This training will consist of classroom and hands-on field training.

PRE-REQUISITES/EQUIPMENT NEEDED

Completion of a Rope Rescue course that meets minimums set forth in NFPA 1006-Chapter 6. Participants must bring a rescue helmet, gloves, and SCBA to this class.

This 4-day course will be offered Thursday-Sunday.

Lead Instructor: Brian Bullock, State Fire Rescue District 13

105 “The First Line” Engine Company Operations

“The First Line” Engine Company Operations will allow the firefighter to learn “Hands-On” fire hose operation techniques and advancing skills during live fire scenarios using the Fire Blast Trailers, car fire burn props, and other propane burn props. This course will offer a great training opportunity for the new firefighter that have not yet had a chance to work a fire at these types of incidents or for the firefighter seeking to polish their skills and learn new techniques for hose/nozzles during live fire scenarios.

PRE-REQUISITES/EQUIPMENT NEEDED

Prior completion of subjects listed on the Live Fire Course Competency Validation form. This form must be mailed in with payment. Full PPE & SCBA with a spare cylinder is required. All PPE must be less than 10 years old and SCBA cylinders within hydrostatic test date. Any student with facial hair that impedes the seal of the face piece will not be allowed to participate.

This 4-day course will be offered Thursday-Sunday.

Co-Instructor: Marty Kazsuk, State Fire Rescue Training District 14

Co-Instructor: Danny Eades, State Fire Rescue Training District 15

106 “Fire Ready” Mini-Academy

“Fire Ready” is a course that will cover each required topic set forth by the 2017 Edition of NFPA 1403 Live Fire Training. NFPA 1403 requires students to have knowledge of these topics to participate in Live Fire exercises. If you are wanting to participate in Live Fire exercises, then this is the course for you. The course will include classroom lectures and hands-on skill settings, ranging from basic fire firefighter training to Live Fire scenarios. This course is not just for the “Newest Guy” on the department, but an excellent refresher for seasoned members as well. Subjects listed on the Live Fire Course Competency Validation form will be covered in this class.

PRE-REQUISITES/EQUIPMENT NEEDED

Full PPE & SCBA with a spare cylinder is required. All PPE must be less than 10 years old and SCBA cylinders within hydrostatic date. Any student with facial hair that impedes the seal of the face piece will not be allowed to participate.

Lunch will be available to purchase on-site for \$6 per person per day.

This course will be off-site.

This 4-day course will be offered Thursday-Sunday.

Lead Instructor: Dave Earnest, State Fire Rescue Training District 15

107 Rapid Intervention Teams

This advanced four-day class is designed for the experienced firefighter who wants to expand their knowledge, skills, and performance during RIT operations. The RIT classroom portion consists of various topics focusing on theory, preventative RIT operations, thermal imaging, and basic equipment utilized in RIT operations. This hands-on training course is EXTREMELY demanding, both mentally and physically. Hands-On Training evolutions reinforce and develop the skills of firefighter survival and rescue, mayday procedures, and RIT operations. Training will conclude with increasingly difficult scenarios utilizing basic skills and tools.

PRE-REQUISITES/EQUIPMENT NEEDED

Prior completion of subjects listed on the Live Fire Course Competency Validation form. Full PPE & SCBA with a spare cylinder is required. All PPE must be less than 10 years old and SCBA cylinders within hydrostatic date. Any student with facial hair that impedes the seal of the face piece will not be allowed to participate.

This course will be held off-site.

This 4-day course will be offered Thursday-Sunday.

Lead Instructor: Dustin Whited, Lexington Division of Fire and Emergency Services

108 Hazardous Materials Awareness and Operations

These courses are to provide first responders with the information they need to take appropriate initial action when hazardous material incidents are encountered. Hazardous Material Awareness provides information to first responders to recognize the presence of hazardous materials, protect themselves, call for help, and deny entry to area. Hazardous Materials Operations provides information for first responders to recognize the presence of hazardous materials, respond in a defensive mode to control the release and spread of the product, thereby protecting nearby persons, the environment and property. The Operations course will include practical exercises.

PRE-REQUISITES/EQUIPMENT NEEDED

Full PPE is required including SCBA and a spare cylinder (for Operations class).

Hazardous Materials Awareness (8 hours) will be offered on Thursday.

Hazardous Material Operations (24 hours) will be offered Friday-Sunday.

Lead Instructor: Chris Spaulding, State Fire Rescue Training District 6

109 EMT Refresher/Continuing Education

This course meets the EMT minimum continuing education requirements required by administrative regulation 202 KAR 7:301. EMT, Section 3; Recertification and Continuing Education Requirements for KBEMS EMT recertification. This course also satisfies the twenty (20) hours necessary to meet the national component for NREMT National Continued Competency Program (NCCP) for NREMT EMT-Basic recertification. It also provides an additional ten (10) hours of training that may satisfy the state or individual components of the NCCP.

The following subjects will be covered during this course: Airway/Respiration/Ventilation – 1.5 hours; Cardiovascular – 6 hours; Trauma – 1.5 hours; Medical – 6 hours; Operations – 5 hours; Flexible content – 10 hours.

This 4-day course will be offered Thursday-Sunday.

Lead Instructor: Gary Hall, State Fire Rescue Training District 13

110 Paramedic Refresher/Continuing Education

The NREMT Paramedic National Continued Competency Program (2016) model requires 60 hours every two years: 30 mandated hours identified by NREMT; 15 hours identified by your local jurisdiction; and 15 hours identified by yourself. On April 15, 2022, KBEMS will require the NREMT NCCP 2016 model for all Kentucky Licensed Paramedics to recert.

This course will provide the 30 mandated hours required by the NREMT for paramedic CE. Paramedics that are not maintaining their NREMT certification must complete these hours for KBEMS recertification. Delivery methods for the course include a mix of lecture, instructor-led discussion, hands-on activities, and individual study.

The following subjects will be covered during this course: Airway/Respiration/Ventilation – 3.5 hours; Cardiovascular – 8.5 hours; Trauma – 3.0 hours; Medical – 8.5 hours; Operations – 6.5 hours (Total 30 hours).

This 4-day course will be offered Thursday-Sunday.

Lead Instructor: Joe Dennison, State Fire Rescue Training District 3

111 Honor Guard Academy

Establishing an honor guard in your department is a reverent way to provide honor, dignity and respect for our fallen brothers and sisters and their families as well as your community. Participants in this course will develop skills and knowledge of public safety honor guard units and it will allow agencies to prepare for the worst in the emergency services community before they are faced with it. This course concentrates on the elements of Line of Duty Death Procedures and Protocols; this will include ceremony and procedure, military drill and ceremony instruction, individual and group precision movements, developing technical and stylistic maneuvers that will encompass rehearsal and public performance. There will be ample hands-on practical application each day.

PRE-REQUISITES/EQUIPMENT NEEDED

Class A uniform (or department equivalent), if the student has one, and any flags that the student's department color guard may have.

This 4-day course will be offered Thursday-Sunday.

Lead Instructor: Michael Felty, State Fire Rescue Training District 15

112 Vehicle Rescue

This class is designed for the first responder that wants to take their rescue skills to the next level! This hybrid class of auto extrication and heavy vehicle rescue will provide the student with the knowledge and skills to mitigate vehicle stabilization and extrication encounters from simple to complex. This intensive 3-day course will challenge you to work individually and in teams to respond to increasingly complex rescue scenarios. The auto extrication portion of the class will cover stabilization including basic wood cribbing, struts and other methods; the heavy rescue portion of the class will cover car/truck under ride, commercial trucks, busses, and heavy lifting. This hands-on training course is physically demanding.

PRE-REQUISITES/EQUIPMENT NEEDED

3-years' experience with rescue techniques and tools.

Helmet, gloves, jumpsuit or turnout gear, fire/rescue footwear and safety glasses. No SCBA is required.

Special thanks to Robert's Towing for their support of this course!

This course will be held off-site.

This 3-day course will be offered Thursday-Saturday.

Lead Instructor: Matthew Haddle, State Fire Rescue Training District 5

113 Agriculture/Farm Incidents

This class will offer students a look into rescue considerations when dealing with agriculture and farming operations. Several outside agencies will be involved in bringing this class to school. There will be a mix of classroom and hands on learning daily in this class. Students may choose from any or all of the days listed:

Thursday: Large Animal Rescue

Friday: Farm Rescue Awareness

Saturday: Grain Rescue

PRE-REQUISITES/EQUIPMENT NEEDED

Helmet, eye protection, extrication jumpsuit/turnout gear, gloves, and boots

This course will be held off-site.

This 3-day course will be offered Thursday-Saturday.

Lead Instructor: Dale Dobson, KY Department of Agriculture

114 Evaluating Your Water Delivery Systems

Evaluating and field-testing hose, nozzles and appliances are an important part of planning. The GPM delivered to the fire will adversely affect the outcome if the water flow is not adequate to suppress the fire. Hydraulic calculations are theoretical and only give a starting point to conduct testing. Even apparatus discharge plumbing can affect water flow – the only method to confirm calculations is field testing. This class will demonstrate the use of flow meters and inline pressure gauges to field test different types of hose and nozzles. Students will be able to return to their departments and perform necessary testing on equipment, and can aid in developing new SOP's, apparatus flow charts and future purchases.

PRE-REQUISITES/EQUIPMENT NEEDED

Helmet, safety glasses and gloves

This 1-day course will be offered Thursday.

Lead Instructor: Steve Barton, State Fire Rescue Training District 13

115 Junior Firefighter

Learn from the Past and Prepare for the Future! Join fellow junior firefighters from around the state for a weekend of networking and education! Build your skills in a mix of basic and advanced classroom and hands-on training while participating in a “can-do” atmosphere. This course is designed to teach the students team building, communication and leadership while honing the skills necessary to operate in today's fire service. Participants will be physically challenged at times and should be prepared to perform hands-on skills in full PPE. This class is open to junior firefighters ages **15-17** who are part of a departmental junior program recognized by the Kentucky Fire Commission.

PRE-REQUISITES/EQUIPMENT NEEDED

Full PPE including SCBA and a spare cylinder. Every Junior Firefighter must bring the required Training and Emergency Contact Form signed by the Fire Chief of their department.

This 3-day course will be offered Friday-Sunday.

Lead Instructor: Ashley McWaters, State Fire Rescue Training District 5

116 Pumper Operations and Theory

Pumper Operations and Theory will allow the firefighter to learn competency in the performance requirements necessary to perform the duties of a pumper operator. Basic preventive maintenance, pump operation, hydraulic calculations, relay pumping, and pump testing will be covered. Students will execute these skills through hands on training involving a front-line pumper as well as a pump panel simulator.

PRE-REQUISITES/EQUIPMENT NEEDED

Students will need a rescue or fire helmet and gloves.

This 3-day course will be offered Friday-Sunday.

Lead Instructor: Dennis Swartz, State Fire Rescue Training, District 9

117 Traumatic Injury Extrication

Have you ever received a call for a subject stuck in an HVAC vent, a wedding ring stuck on a finger, or even a motorcycle accident victim impaled on a signpost? The rescuer often finds difficulty in approaching these situations simply because of the unknowns. This class will bring a new perspective to this type of incident. Instructors will provide “out of the box” ways of thinking that are usually not incorporated with normal fire service operations. This different train of thought will help the student develop a framework of techniques and tools that will make this operation smooth and safe. At the end of this class the student will be confident in proper tool choice for these incidents and able to operate with confidence on scene. This class focuses upon hands-on training using many different types of cutting tools to complete extrication scenarios.

PRE-REQUISITES/EQUIPMENT NEEDED

Safety glasses, helmet, turnout coat and work gloves.

This 3-day course will be offered Friday-Sunday.

Lead Instructor: Will McKenzie, State Fire Rescue Training District 9

***Be sure to join us for the annual
Exhibit Showcase Friday, June 10th***

***This is a great place for face-to-face interaction with vendors you
currently patronize, and a wonderful opportunity to meet new
vendors!***

201 Fire Officer I

This course is designed to prepare students to successfully complete certification as Fire Officer I. This course is based on the content in IFSTA Fire and Emergency Services Company Officer 6th Edition. The course meets or exceeds NFPA 1021 Fire Officer I Standard for Professional Qualifications, 2014 edition. The target audience includes current company officers, acting company officers, and firefighters preparing for promotion to company officer. By completing all lessons, the student should be prepared for the Fire Officer I certification process. Students will have skill evaluation sheets, quizzes, and tests throughout the class prior to certification testing.

CERTIFICATION PROCESS

An attempt at IFSAC certification is available the last day of class. Candidates will submit a completed application to the Kentucky Fire Commission. The candidate shall remit the prescribed written test sitting fee of \$25, payable by fire department check or money order. They will attempt a written examination of 100 multiple choice, true/false or matching questions and participate in skills examination. Upon successful completion of the written and skills exams, provided all documentation and fees are submitted, and prerequisites are satisfied, the candidate shall become eligible to receive an accredited certification from the Kentucky Fire Commission.

PRE-REQUISITES/EQUIPMENT NEEDED

All class participants will need to bring a laptop. All students will need to purchase IFSTA Fire and Emergency Services Company Officer 6th Edition textbook prior to the class starting. It is highly encouraged that the students also purchase the study guide that goes along with the textbook. The study guide will help prepare the student for the certification testing. To certify at this level, you must already possess: IFSAC Accredited Firefighter I and II certification and IFSAC Accredited Fire Instructor I certification.

This 6-day course will be offered Tuesday-Sunday.

Lead Instructor: Gary Clarke, State Fire Rescue Training District 9

202 Fire Officer II

This course is designed for the Fire Officer who is ready to assume more of a leadership role by moving into the middle-management level of his/her department. This course expands on the knowledge-base attained in Fire Officer I and also adds additional material including Management, Government Structure, and Departmental Budget Planning and Management. This course is based on the content of **NFPA 1021: *Standard for Fire Officer Professional Qualifications***.

CERTIFICATION PROCESS

An attempt at IFSAC certification is available if desired on Sunday or you can schedule at your convenience at a SFRT office location. Candidates will submit a completed application to the Kentucky Fire Commission. The candidate shall remit the prescribed written test sitting fee of \$25, payable by fire department check or money order when taking the written exam. The skill portion of the evaluation will consist of a portfolio that will be explained in class and submitted at a later date.

PRE-REQUISITES/EQUIPMENT NEEDED

All class participants will need to bring a laptop. All students will need to purchase IFSTA Fire and Emergency Services Company Officer 6th Edition textbook prior to the class starting. It is highly encouraged that the students also purchase the study guide that goes along with the textbook. The study guide will help prepare the student for the certification testing. To certify at this level, you must already possess: IFSAC Accredited Firefighter I and II certification, IFSAC Accredited Fire Instructor I certification and IFSAC Accredited Fire Officer I certification.

This 4-day course will be offered Wednesday-Saturday with optional written exam given on Sunday.

Co-Instructor: Richard Cyrus, State Fire Rescue Training District 9

Co-Instructor: Chris York, State Fire Rescue Training District 3

You do not have to be a registered student or conference attendee to participate in the Exhibit and Vendor Showcase. We strongly encourage emergency service personnel to patronize and purchase from our loyal and dedicated exhibitors!

203 Type IV/V Incident Management Team Training (IMT)

Using classroom lecture and simulated incidents, the student will understand the role and function of an incident management team, the applicability of management principles to the incident management job and the special considerations of incident management within geographic areas of the Commonwealth. Course objectives are to train command staff positions to function as qualified local incident management teams who are able to assist in the management of large or highly complex all hazard incidents. The focus of the course is to better prepare team members within the local jurisdiction to address the unique and challenging management needs associated with these kinds of incidents within the jurisdiction.

This class offers a solid review of the ICS/IMT tools to get students started writing Incident Action Plans and commanding and controlling incident scenes and will incorporate “hands-on training” with intense practice of command and control while writing Incident Action Plans for Type IV/V scenarios where each person will rotate from on-scene roles.

PRE-REQUISITES/EQUIPMENT NEEDED

This course is open to rescue, fire, emergency medical, emergency management, public health and law enforcement personnel or any organization wishing to be part of the local incident management team. Students must have completed IS-100, IS-200, IS-700, IS-800 and ICS-300. Priority will be given to those individuals that serve as a supervisor within an organization responsible for mitigating Type IV/V incidents. Students will need to bring a pen and paper and it is recommended students bring a personal laptop (if possible).

This 2-day course will be offered Thursday-Friday.

Lead Instructor: Todd Schulkers, State Fire Rescue Training District 7

204 NFA Incident Safety Officer

This course will provide students with the knowledge and skills needed to perform the duties of the Incident Safety Officer (ISO) during incident operations and training evolutions. Students will receive instruction through an incident-specific, scenario-oriented format that includes instructor-led discussion, multimedia activities, and small group discussions to convey instructional points.

This 2-day course will be offered Thursday-Friday.

Lead Instructor: Matt True, State Fire Rescue Training District 7

205 NFA Health and Safety Officer

This course will provide fire department members and other EMS personnel with information on the knowledge and skills needed to effectively manage a fire department’s Occupational Safety and Health Program. Topics include: risk management, laws, codes and standards, health maintenance and wellness, and the Occupational Safety and Health Program. Students will bring back to their department knowledge to manage member safety, health and wellness and lead the organization’s efforts to develop, maintain, improve and implement a Risk Management Plan.

This 2-day course will be offered Saturday-Sunday.

Lead Instructor: Matt True, State Fire Rescue Training District 7

300 Fire Investigation and Public Education

301 Fire Investigations for First Responders (Arson I)

This is the National Fire Academy course, "Fire Investigations for First Responders." The purpose of this course is to provide first responders with the tools to understand the key role they play in fire scene examination and in preserving and protecting important evidence for any subsequent investigation. The content of the course will provide a clear definition of the role of the first responder in arson detection and provide essential knowledge to enable him or her to recognize the potential of intentionally set fires, preservation and protection of evidence, and proper reporting of information to appropriate officials. This course exceeds the requirements of FIR 1035 in the KCTCS Fire Science Technology program.

This 3-day course will be offered Thursday-Saturday.

Lead Instructor: Russell Todd, State Fire Rescue Training District 5

302 Fire Scene Investigations (Arson II)

This is a comprehensive course with emphasis on techniques to determine the origin and cause of fires. Actual case scenarios will be incorporated to enhance this class. A wide variety of expertise is brought together through the cooperation of local, state, federal, fire, police and private investigators to provide the student with excellent instruction and detail.

PRE-REQUISITES/EQUIPMENT NEEDED

Prior completion of an acceptable Arson I course. You must have a signed permission form or letter from your chief prior to attending fire investigation courses taught by the Kentucky Chapter of IAAI. Students will need full protective turnout gear.

This 3-day course will be offered Thursday-Saturday.

Lead Instructor: Jim Kanavy, Kentucky Chapter International Association of Arson Investigators

303 Legal Issues for Fire Investigators (Arson III)

This course is the final and concluding level in arson investigations. The purpose of the course is to aid the Investigator in the preparation and presentation of their case in a court of law. This course emphasizes legal aspects, case preparations, trial procedures, and criminal enforcement. A mock trial is planned for Saturday morning, incorporating the Arson II class.

PRE-REQUISITES/EQUIPMENT NEEDED

Prior completion of an acceptable Arson I course and Fire Scene Investigations course (Arson II). These classes must be sanctioned by the Kentucky Chapter IAAI. A certificate or documentation must be provided at registration.

This 3-day course will be offered Thursday-Saturday.

Lead Instructor: Assistant County Attorney Paul Richwalsky, Jefferson County Attorney's Office

400 KY State Fire Marshal Courses

401 Fire Company Inspections

This course is the first part of the Kentucky State Fire Marshal's Fire Inspector Program. This program will educate students on the new fire inspection program and the basics of being able to identify potential fire code issues as you conduct your company inspections. Students are encouraged to bring a tablet computer or laptop and calculator.

This 1-day course will be offered Thursday.

Lead Instructor: Mike Killebrew, State Fire Marshal's Office

402 Continuing Education for Fire Suppression System Inspectors

This class will satisfy the requirements for the six (6) hours of continuing education for fire suppression sprinkler inspectors licensed by Department of Housing, Buildings and Construction in the state of Kentucky. The class will cover NFPA 25 for the inspection of water-based suppression systems.

This 1-day course will be offered Thursday.

Lead Instructor: Barrett Smith, State Fire Rescue Training District 12

403 Continuing Education for Fire Alarm Inspectors

This class is developed and presented for the industry professionals that are required to attend and receive recertification credit for licensure. It will help students have a deeper understanding of fire alarm systems. Class will have discussions as to where alarms are required, installed and maintained. Also, proper inspection of the systems, how they function, how they help save lives, and how they may benefit the fire service. This class qualifies for the six (6) hours continuing education required for State Certified Fire Alarm Inspectors.

This 1-day course will be offered Friday.

Lead Instructor: Barrett Smith, State Fire Rescue Training District 12

404 Commercial Fireworks Stand/Display Inspections and Governance

This course is designed to assist fire department personnel with State and Federal regulations that pertain to display fireworks, consumer fireworks, and retail sales of consumer fireworks. Students will leave this class with a better understanding of state and federal fireworks laws and regulations. This course will provide fire code instruction on inspecting consumer fireworks sales facilities as well as federal licensing requirements for the storage and use of display fireworks. In addition to fire departments, mayors and county judges could also benefit from this course.

This 1-day course will be offered Friday.

Lead Instructor: Mike Burke, State Fire Marshal's Office

405 Fire Inspector I

This class is the second step in the Fire Marshal's revised Inspector Certification program. This class is designed for fire professionals that perform fire prevention inspections on a daily basis. This class will provide instruction on the 2012 fire codes. Prior knowledge of dealing with inspections is required. This class will consist of instruction followed by an exam. Students are encouraged to bring a tablet computer or laptop and calculator.

PRE-REQUISITES/EQUIPMENT NEEDED

Pre-requisite for this class is Fire Company Inspections.

This 1-day course will be offered Friday.

Lead Instructor: Tim Juett, State Fire Marshal's Office

406 Fire Inspector II

This class is the third step in the Fire Marshal's revised Inspector Certification program. This class is designed for the fire inspectors and building code officials that deal with life safety issues on a daily basis. The student will get detailed instruction on occupancy requirements and occupant loads. This class will consist of instruction followed by an exam. Students are encouraged to bring a tablet computer or laptop and calculator.

PRE-REQUISITES/EQUIPMENT NEEDED

Pre-requisite for this class is Fire Inspector I certification.

This 1-day course will be offered Saturday.

Lead Instructor: Tim Juett, State Fire Marshal's Office

407 Cause and Origin for Chief Officers

This course is designed to provide a clear definition of the Fire Official's role in origin and cause investigations. Course topics will include: scene preservation and protection, request for assistance from the Fire Marshal's Office, KRS-KAR, reports and scene documentation. By strengthening the partnership between first responders, the State Fire Marshal and KSP arson investigators, the chances for successfully determining origin and cause will increase.

This 1-day course will be offered Saturday.

Instructor: Michael Burke, State Fire Marshal's Office

501 Occupational Cancer Prevention and Mitigation/Autistic Population and First Responders

The Occupational Cancer Prevention and Mitigation course is designed for all levels of fire service personnel from Auxiliary Members and Recruits to Chief Fire Officers. It will provide the students better knowledge and understanding of the dangers Occupational Cancer poses to all members of the fire service and their families. The course will cover: Biological Basis of Cancer, Evidence of Increased Cancer Risk Among Firefighters, Methods to Limit Exposure and Current Cancer Treatments and Outcomes. A hands-on practical aspect of the class will instruct students how to perform personal and gross decontamination.

The Autistic Population and First Responders course will provide students with information that is essential for first responders to understand autism and how to be prepared to respond effectively and safely to situations that arise involving individuals on the spectrum. Students will learn what autism is, how to identify characteristics of autism and how these might impact emergency situations. Students will learn strategies to engage and aid individuals with autism in emergency situations, learn where to look for additional resources/support/information related to autism spectrum disorder, and to interact, engage and put learned strategies in action with individuals from the autistic community.

This 1-day combined course will be offered Thursday.

Co-Instructor: Dr. James Cripps, University of Louisville (Occupational Cancer Prevention and Mitigation)

Co-Instructor: Sarah Kaiser, University of Louisville (Autistic Population and First Responders)

Co-Instructor: Chad Greathouse, Louisville Division of Fire (Autistic Population and First Responders)

502 Basic Chaplaincy

The Basic Fire Chaplain Training course includes course material designed to introduce the fire chaplain to ministry in the fire service. Topics include: Ministry to Firefighters, Ministry to Fire Victims, Critical Incident Stress, Fire Department Funerals, Fire Chaplain Operations, and many others. On Saturday, a voluntary class trip to support rehab operations will be offered.

This 2-day course will be offered Thursday-Friday.

Lead Instructor: Rebecca Brown, Kentucky Federation of Fire Chaplains

Commemorative State Fire School T-shirts and Challenge Coins will be offered for sale by the Kentucky Firefighter's Association during the school. Limited quantities - get yours early!

503 Tactical Thermal Imaging

In today's rapidly changing fire environment, and with a reduction in on-scene resources, it is increasingly important to deploy quickly and efficiently. This class will address the use of the Thermal Imaging Camera for first-in crews as well as ongoing size up. Fire location, protected areas and flow path can be determined prior to committing crews to on-scene actions. The use of the First In Thermal Simulator will allow students to exercise lessons learned pertaining to reading smoke, visual cues and thermal images. Hands-on size-up of single-family homes in typical ranch, two-story and balloon frame construction will prepare crews for the future.

This 1-day course will be offered Friday.

Lead Instructor: Doug Hurt, State Fire Rescue Training District 15

504 Responding to Elevator Emergencies

The Responding to Elevator Emergencies course provides relevant information regarding elevator history, various systems found in the field, safety procedures, and the proper removal and treatment of trapped and/or injured passengers in a stalled elevator. The course incorporates current Standards outlined in ASME A17.4-2015: Guide for Emergency Personnel (Includes Evacuation Procedures and Firefighters' Service Operating Procedures).

SPECIAL INSTRUCTIONS:

The afternoon segment of this course will be conducted offsite in Lexington. The location of this activity will be within a short driving distance of the classroom location. Registrants should be prepared to provide transportation for themselves for this segment of the course.

This 1-day course will be offered Friday.

Lead Instructor: Mark Isaacs, State Fire Rescue Training District 9

505 Drone Operations

Unmanned drones are being increasingly used by the fire service. Drones with video camera capabilities offer a great opportunity to assess information from significant incidents and large-scale events and provide that information to the incident commander to help keep firefighters and other responders from unnecessary danger. This course provides the most updated drone operations materials and will cover using a drone as a mission tool and provide the student with a better understanding of standard operating procedures, training, management, operations, mitigation and will also discuss certificates of authorization.

This 1-day course will be offered Saturday.

Lead Instructor: Bart Massey, Hazard Community & Technical College

506 Distillery Emergencies – Response and Prepared Awareness

With the expansion of the distillery industry in the Commonwealth, this course will provide a basic awareness of the different types of emergencies that your department may respond to within the distillery industry. This course will, among other topics, serve to educate those on basic firefighting tactics in the distillery industry, fire characteristics of burning alcohol, bourbon industry terminology, and a review of the different types of building construction found within the distilling industry in Kentucky. Students will also learn about pre-planning and basic preparedness steps they can take with their local distilleries to be more equipped to handle large scale events.

This 1-day course will be offered Saturday.

Co-Instructor: Tate Preston, Health and Safety Manager: James B. Beam Distilling Company.

Co-Instructor: Jason Meiman, Pleasure Ridge Park Fire Protection District

507 Insurance Service Office (ISO) Public Protection Classification Program

In an effort to keep fire departments informed and up to date on how the Public Protection Class (PPC) rating system is evaluated, this one-day workshop will be offered. This workshop will explain the current Insurance Services Offices (ISO) rating schedule. Presenters will be from ISO; this workshop will be an excellent opportunity to get your questions answered as you prepare for your department's next evaluation.

This 1-day course will be offered Saturday.

Co-Instructor: Cassandra Corn, Verisk

Co-Instructor: Tyler Olsen, Verisk

508 Opioid Awareness/Violence Intervention by Prevention for Emergency Responders (VIPER)

The Opioid Awareness and Exposure Prevention Program will target responders in rural areas and with the goal of promoting safer responses and improving patient outcomes. The course will help identify various types of opioids, common uses, and associated risks. The course will also help recognize several common methods of administering opioid antagonists, describe safe work practices, and indicate when and how emergency decontamination is utilized.

The Violence Intervention by Prevention for Emergency Responders (VIPER) Training Program was developed to assist first responder professionals in dealing with on-scene violence. Upon extensive research, the past ten years have shown a steady increase in violent acts carried out against emergency responders. These violent acts consist of everything from verbal threats to murder. Society has changed, lifestyles shift, and you end up witnessing and sometimes experiencing more violent situations. How can you deal with this danger? The VIPER Training Program is designed to increase the awareness level of you, the emergency responder. With awareness, the participant will have more knowledge to carry with them to that emergency scene and hopefully prevent any violence from occurring.

This 1-day combined course will be offered Sunday.

Instructor: Ricky King, State Fire Rescue Training District 3

509 Grant Writing for Fire Departments

This course will provide an introduction to grants and the grant process. There will be discussion on various types of available grants, statistics and information for the current federal grant cycle. The instructor has been successful in obtaining several grants as well as participating in multiple grant reviews for Homeland Security and FEMA.

This 1-day course will be offered Sunday.

Lead Instructor: Derrick Hall, State Fire Rescue Training District 12

***Special Thanks to Dr. David Greenlee, Christian Ulrich,
Steve Blake, Frank Handshoe, Alex Graham and
Buford Hurley II for use of their great State Fire School photos!***

From: Marc Henderson, KFA Vendor Specialist
Re: 91st Annual KY State Fire School

The 91st Annual KY State Fire School is rapidly approaching, and we are excited to announce a new venue for this year's school and vendor show.

We are happy to announce that the vendor show, and host hotel will be at the Embassy Suites Lexington UK/Coldstream and classes will be held at Bluegrass Community and Technical College Leestown. Due to construction/parking issues in downtown Lexington, and after many meetings the KY State Fire School Board has chosen these venues to best serve the students of the school. This year's slogan is:

PROGRESS IS IMPOSSIBLE WITHOUT CHANGE

Vendor Show will be held Friday June 10th from 2:00pm to 9:00pm.

We have also decided to go to a one-day show after talking to many of you and getting your opinions. Booth spaces will again be 10X10, draped and include a 6ft table and 2 chairs.

Truck spaces will be available and will be directly outside in the parking lot adjacent to the vendor hall. We will go back in time and relive the old days of Fire School with trucks being displayed in the parking lot.

We do plan on serving food to the students during the vendor show.

We are always open to ideas to get the crowds into the vendor hall and if you have any special promotions or ideas, please let me know.

KFA Memberships will be processed directly by the KFA and will not be in the vendor packets again this year.

I look forward to working with everyone and welcome any comments/ideas on growing the show. You can reach me on my cell phone at 270-499-1602 or by email at marc.henderson@kctcs.edu.

Thank you!!

Live Fire Course Competency Validation/Fitness for Duty Form

Required for all students before participating in SFRT Live Fire Training

NFPA 1403 (2018 Edition) 4.3.1 - 4.3.3 require that all participants must have prior training and meet prerequisites in certain subjects before participating in live fire training. These minimum subjects include:

1) Safety; 2) Fire Behavior; 3) Portable Extinguishers; 4) Personal Protective Equipment & SCBA; 5) Ladders; 6) Fire Hose, Appliances, and Streams; 7) Overhaul; 8) Water Supply; 9) Ventilation; 10) Forcible Entry; 11) Building Construction. Specific prerequisite training must also be met in these areas: Fire Dynamics; Health and Safety; Fundamentals of Fire Behavior; Fire Development in Compartments; Nozzle Techniques and Door Control.

The Chief Officer of _____ Fire Department authorizes that _____ completed the minimum training/prerequisites and may participate in the live fire training evolutions present by SFRT.

NFPA 1403 (2018 Edition) 4.4.1 requires that all participants must be rehabbed in accordance with NFPA 1584, Chapter 6. Before being released from the rehab area to participate in a State Fire Rescue Training live fire training evolution, normal conditions are considered to consist of: heart rate of 60-100; respiratory rate of 12-20; systolic blood pressure less than 160; diastolic blood pressure of less than 100; pulse oximetry of 95% or greater. Participants are encouraged to periodically check their vital signs and seek appropriate medical attention for abnormal signs/symptoms.

Baseline Vital Signs (This must be completed prior to participating in live fire training):

Date: _____ Time: _____ Heart Rate: _____ Respiratory Rate: _____

Blood Pressure: _____ Pulse Ox: _____ Obtained by (Name): _____

Participants must be at least 18 years of age and a member of a Fire Department or an Industrial Fire Brigade recognized by the Kentucky Fire Commission to participate in live fire training delivered by State Fire Rescue Training. ID's will be checked by SFRT instructors before allowing students to participate in live fire training. All turnout gear must be less than 10 years of age. Per NFPA 1403 (2018 Edition) A4.9.5 it is recommended that all participants wear full-length clothing made of natural fibers or fire-retardant materials under their personal protective equipment during live fire evolutions.

Facepiece seal protection: SFRT requires that all students must be compliant with OSHA 29 CFR 1910.134:

“1910.134(g)(1)(i) -The employer shall not permit respirators with tight-fitting facepieces to be worn by employees who have: 1910.134(g)(1)(i)(A) - Facial hair that comes between the sealing surface of the facepiece and the face or that interferes with valve function;” (hair growth between the skin and the facepiece sealing surface, such as stubble beard growth, beard, mustache or sideburns which cross the respirator sealing surface).

Signature of Chief Officer: _____

Signature of Student: _____

This form must accompany any registration form for live fire training courses.

(DUPLICATE AS NEEDED)

Revised February 2020

Junior Firefighter Program Training and Emergency Contact Information

JRFF Name: _____

Class/Subject: _____

Date: _____

Fire School: _____

Fire Department: _____

JRFF Program Coordinator: _____

Please Print

JRFF Program Coordinator Signature: _____

JRFF Program Coordinator Phone #: _____

The Fire Department Junior Firefighter (JRFF) Program Coordinator **SHALL** provide all JRFF's with a Training and Emergency Contact Information Form prior to the JRFF attending classes outside of the JRFF primary department. The information included above is required at a minimum. Fire Departments may collect more information if necessary.

Inform participating Junior Firefighters that they **must keep a copy of this form with them at all times while participating in fire department activities.** Class instructors and/or school/conference leadership may randomly request to see a copy of the form during the conduct of classes and or event. If the participant is unable to provide a copy, the instructor, other department leadership, or conference organizers shall not allow the child to continue participation until the form is produced.

**THANK YOU FOR CELEBRATING 91
YEARS OF KENTUCKY STATE FIRE SCHOOL**

WE LOOK FORWARD TO SEEING YOU AGAIN IN 2023!
