

# FIGHTING FIRES IN SPRINKLERED BUILDINGS

## *Course Description:*

The purpose of the Fighting Fires in Sprinklered Buildings program is to provide firefighters with a greater understanding of why these losses occur and how to help prevent them. Understanding how automatic sprinklers work and how to develop a sound prefire plan will improve the effectiveness of firefighters during fires. This class was developed by FM Global.

***Textbook:*** Participant Manual/Handout

***Class length:*** 3 hours

- Lesson 1: Introduction
- Lesson 2: Automatic Sprinkler Systems
- Lesson 3: Why Sprinklered Buildings Burn
- Lesson 4: Prefire Planning and Execution
